John,

You would be within the Hollywood Hills and that's Catherine Landers. In addition, Lano will be following up on the transit issue.

Hi Sarah –
Can you let me know which staff person will be handling the Curson / Fountain Spaulding Square area? Saw the news about new staff – checking to see if we will be with Hollywood Rep or Hollywood Hills –

Look forward to catching up soon – we had our Runyon Canyon board meeting and will follow up –
Thanks–
JLG

Sarah –
Thank you so much for meeting with me to discuss CD4 issues. Great to see you and appreciate your time.
Recap –

Friends of Runyon Canyon Foundation

We are focused on raising funds for Park improvements and acquisition of the land on the West Trail. We would very much like Councilman Ryu to join us at a Board Meeting or public hike and tour through the Park. We have a cooperating agreement with the Rec and Parks and great progress is at hand. CD4 partnership will be a meaningful part of our plans as we work to improve the Park for 1.7 million visitors and the surrounding residential community. We will also be continuing our work of community outreach and public forums.

Fountain / Curson

The intersection is extremely dangerous and numerous accidents continue to occur. Signage needs to be updated – perhaps add a traffic signal. Recent fatality and serious injury accidents have occurred here.

Sunset BID

We will hold off on this until further notice

Not For Profit Seminar

We are working with a number of not for profits in the housing / youth / hunger arena in the 4th and 13th in an effort to integrate work plans and collaboration. Your experience in this field will be very helpful – I will let you know regarding our forthcoming plans –

Thank you again Sarah – I look forward to working with Councilman Ryn and the 4th District team –

Best regards,

JLG

John
